Dr. Richard Steckel, President
AddVenture Network, Inc.
13870 Lawrence Street
Denver, CO 80204

Dear Richard,

I know this is last minute, but here is a preliminary version of the questionaire we plan to give out at the Board/Founder meeting on May 10th.

What I plan to do is give the Board/Founders a general overview of the things Whole Earth Institute is doing now, or planning to do in the future -- like the conference of Virtual Reality, the Healing the Planet book and the POINT Information Distribution System. Then I will give them the questionaire and tell them we need to know how much we can charge for our services to see if we can amortize our initial expenses over the next three years.

Once we get their responses back and collate them, I will approach another group of corporations (relatively unknown to POINT) and get their reactions.

If you have any suggestions for how we can make this a better survey -- or things we should add -- please fax back.

Otherwise have a good jaunt in the wilds!

Yours truly,

Stephanie Leonard
Executive Director
